

NAID AAA Certification

Mobile Shred IT's NAID certified paper destruction procedures use the highest level of compliance that guarantees the permanent destruction of your data. Upon completion, you will be provided with a Certificate of Destruction ensuring your full compliance with all regulatory and compliance laws. Once shredded, all paper is recycled, adhering to our zero-landfill initiative for sustainability.

An extensive, three-level background screening process verifies that no individual with a known history of related crimes will be handling confidential material..

Electronic data must be completely wiped out by utilizing secure wipe standards in accordance with the relevant industry regulations.

Documents scheduled to be destroyed must be strictly kept in secure containers that prevent access from anyone.

Hard copy material must be cross-cut shredded, pulped, or incinerated. All documents and materials which contain sensitive data and information are destroyed in such a way that it is impossible to reconstruct them.
